

Curriculum vitae of Ondřej Kreml

- February 26, 1983: born in Šumperk
- 2001 - 2006: undergraduate studies at the Faculty of Mathematics and Physics, Charles University in Prague, mathematical modeling, diploma thesis "Axially symmetric flow of a viscous newtonian fluid", supervisor Milan Pokorný
- 2005 - 2011: teaching at the Faculty of Mathematics and Physics, Charles University in Prague - exercises of mathematical analysis
- 2007 - 2010: Ph.D. student at the Faculty of Mathematics and Physics, Charles University in Prague, mathematical modeling, PhD thesis "Mathematical analysis of models for viscoelastic fluids", supervisor Milan Pokorný
- 2010 - 2015: postdoc position at Institute of Mathematics, Czech Academy of Sciences
- 2012 - 2013: 12 months postdoc position at University of Zurich
- 2016 - present: researcher position at Institute of Mathematics, Czech Academy of Sciences

Awards:

- 2015: Otto Wichterle Premium for young researchers
- 2006: winner of the czech-slovak competition SVOČ in the category "mathematical analysis"

Longer academic stay:

- October 2012 - January 2013, May 2013 - December 2013: University of Zurich, Switzerland, working on project SCIE 11.152

Grants:

- 2017 - present, Czech Science Foundation, junior project 17-01694Y *Mathematical analysis of partial differential equations describing inviscid flows*, principal investigator
- 2017 - 2018, Neuron Impuls Junior project *Mathematical analysis of hyperbolic conservation laws*, principal investigator
- 2017 - 2018, Ministry of Education, Youth and Sports project no. 7AMB16PL060 *Flow of viscous fluid in time dependent domain*, team member
- 2016 - 2018, Czech Science Foundation, project 16-03230S *Thermodynamically consistent models for fluid flows: mathematical theory and numerical solution*, team member
- 2013 - 2016, Czech Science Foundation, project GA13-00522S *Qualitative analysis and numerical solution of problems of flows in generally time-dependent domains with various boundary conditions*, team member
- 2012 - 2013, SCIE 11.152 *TraFlu: Transport phenomena in continuum fluid dynamics*, fellow
- 2011 - 2013, Czech Science Foundation, project GAP201/11/1304 *Flow of fluids in domains with variable geometry*, team member

- 2007 - 2009, Grant Agency of the Charles University, project 2509/2007 *Mathematical models of viscoelastic fluids - theoretical and computational analysis*, principal investigator
- 2006 - 2009, Basic research center, funded by Ministry of Education, Youth and Sports, no. LC06052 *Nečas Center for Mathematical modeling*, graduate student and Ph.D. student

Other:

- Reviewing for various journals in the field of mathematical analysis of partial differential equations

LIST OF PUBLICATIONS

- [1] Kreml, O.; Pokorný, M.: *A regularity criterion for the angular velocity component in axisymmetric Navier-Stokes equations*. Electron. J. Differential Equations (2007), no. 08, 10 pp. (electronic).
- [2] Kreml, O.; Pokorný, M.: *On the local strong solutions for a system describing the flow of a viscoelastic fluid*. Nonlocal and abstract parabolic equations and their applications, 195–206, Banach Center Publ., **86**, Polish Acad. Sci. Inst. Math., Warsaw, 2009.
- [3] Kreml, O.; Pokorný, M.: *On the local strong solutions for the FENE dumbbell model*. Discrete Contin. Dyn. Syst. Ser. S **3** (2010), no. 2, 311–324.
- [4] Konieczny, P.; Kreml, O.: *On the 3D steady flow of a second grade fluid past an obstacle*. J. Math. Fluid Mech. **14** (2012), no. 2, 295–309.
